

Google Meets  
Expectations

Find a quiet and calm  
space for our meeting.

If you are distracted, or if  
you are distracting others,  
then we will not meet our  
learning goals together as a  
team.

Be prepared with all  
your materials.

It will be best if you have all  
your materials near your  
computer all the time. I don't  
want you to miss out on  
anything.

Be on time or early!

It is important that we get started on time. Waiting for people to log in can be boring, and you might miss something fun!

Mute yourself as you  
come into the meeting.

Other people need to be able  
to hear the teacher, so do  
your part to stay quiet.

Please stay muted when you  
can.

Turn your camera on.

I would like to see you because it makes me feel like we are together. If you are too shy, we can have some extra meetings so you get more comfortable.

Be respectful.

Please think before speaking  
and make sure that your  
comments are on-task and  
kind. Do not talk over people  
or talk out of turn.

Take care of your  
computer or other  
electronic devices.

Do not eat or drink near them.  
You only have one, so take care  
of it! They are very important  
for our learning.

If you follow these  
simple rules, we will  
have the BEST time  
online!
